

Assessment Program**

The assessment program in the district shall be for the purpose of program improvement for the district as a whole and for individual students.

The district may maintain the following assessment program:

1. State-required assessments;
2. Other performance-based assessments with results reported to the Board and parents;
3. Criterion-referenced assessment in selected areas/programs;
4. Content-based assessments;
5. Individual diagnostic and ability evaluations when individuals have been referred and parental permission obtained;
6. Assessments by individual teachers;
7. District-approved optional assessments.

Each year the district shall determine the student's progress toward achieving the standards. Progress shall be measured in a manner that clearly enables the student and parents to know whether the student is making progress toward meeting or exceeding standards. The results of such assessments shall be used to measure the academic content standards and to identify students who meet or exceed the standards for each mastery level leading to the Certificate of Initial Mastery and Certificate of Advanced Mastery. The results will also be used as a basis for planning learning activities and as a factor in determining the success of school programs, including the district's curriculum.

The district shall make additional services or alternative educational or public school options available to any student who has not met or has exceeded all of the standards per the state assessment.

The district shall not discriminate in the methods, practices and materials used for assessment, evaluating and counseling students on the basis of race, national origin, religion, sex, age, disability or marital status. Discrimination complaints shall be processed in accordance with established procedures.

Staff will receive in-service education in the use of designated assessments and interpretation of assessment results.

A periodic review and evaluation of the district's assessment program will be conducted.
